

Department of [NAME] Climate Survey

At UW-Madison, climate is defined as the following:

"Behaviors within a workplace or learning environment, ranging from subtle to cumulative to dramatic, that can influence whether an individual feels personally safe, listened to, valued, and treated fairly and with respect." (Campus Climate Network Group, 2002)

"The atmosphere or ambience of an organization as perceived by its members. An organization's climate is reflected in its structures, policies, and practices; the demographics of its membership; the attitudes and values of its members and leaders; and the quality of personal interactions." (Committee on Women in the University's Work Group on Climate, 2002)
